

Haskell County Horse Nutrition and Health Care Program

You recently attended a horse nutrition program put on by Haskell County Cooperative Extension. This was the first meeting on horse nutrition in Haskell County in quite some time. As a result, we would like to know your thoughts about the meeting and what additional information you would like to have associated with horse production and nutrition in the future. Please take a few minutes to answer the following questions. Your responses will help us provide you with relevant information you need.

Please read each statement and check the box that best matches your thoughts.

Statements	Strongly Disagree	Disagree	No Opinion	Agree	Strongly Agree
After Dr. Gibbs presentation, I am now comfortable with my knowledge level of general horse <i>nutrition</i> .					
After Dr. Ward's presentation, I have a better understanding of <i>nutritional disorders</i> .					
It is important to feed horses the most appropriate rations based on their individual needs.					
All horses should not be fed the same ration.					
I now know the things to consider when determining what type of ration to feed horses.					
The information discussed at this program was timely and useful.					
Overall, this was a good educational program.					

What are some things to consider when determining the type of ration to feed my horses?

Background Information

How many horses do you have on your property? _____

How would you best describe your horse operation?

Do you currently buy your horse feed locally?

Yes

No

-if your answer is no, where do you purchase your horse feed from?

As we plan future programs concerning horses, what are some additional topics you would like to learn more about? (Use the reverse side if necessary.)

Thanks so much for your time!!!
